[January 13 2009.doc](#)
[2009LDOC Budget.xls](#)

Rafal's latest spreadsheet is \$1.2M for the EPAAct/EISA testing, which is consistant with this because the two askerisks say "cancelled" bringing the \$1.5M down to \$1.2M. What is not on here is the \$100K that will be needed in June to complete the Evap E-77-2b program that we are started this past year with \$600K of EPAAct/EISA funds.

Subject EPAAct testing status

Ines,
Let me know if this is what you need and if it has sufficient detail. I also attached the budget excersice we did last September for the LDOC specific areas. Connie Hart also has a more detailed EPAAct write-up she sends to Chet bi-monthly that she can provide.

Thanks
Tony
